SUMMARY

I am a Full-Stack Developer with more than 8 years of extensive experience in designing, developing, and deploying scalable, high-performance web applications. My skills encompass both frontend and backend development, enabling me to provide comprehensive, end-to-end solutions. I am passionate about creating user-friendly, responsive, and secure applications that address real-world challenges and foster business growth.

I've collaborated with a variety of clients across different sectors, turning ideas into robust digital products — from startup MVPs to enterprise-level systems. My development philosophy integrates clean coding practices, modern architectures, and cutting-edge technologies, ensuring durable and maintainable solutions.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

Freelancer

- 📅 2023 - Present 📍 Remote
- Successfully developed and deployed over 20 web applications for clients across the globe.
 - Crafted scalable architectures and enhanced application performance.
 - Integrated secure payment systems, third-party APIs, and cloud functionalities.
 - Produced both MVPs and fully-featured platforms, adhering to tight deadlines.

Senior Web Developer

InnoTech Global

- 📅 2020 - 2023
- Oversaw multiple full-stack development projects for enterprise clients.
 - Mentored junior developers and enhanced team coding standards.
 - Established CI/CD pipelines, cutting deployment times by 50%.
 - Refined application speed, greatly improving user experience and SEO rankings.

Software Engineer

TechNova Solutions

- 📅 2017 - 2020
- Designed and created internal tools, dashboards, and client portals.
 - Collaborated with cross-functional teams to bring projects from idea to execution.
 - Elevated application performance by up to 40% through code optimization.

EDUCATION

Master of Science in Computer Science

Harvard University

📅 2017 - 2019

Bachelor of Science in Computer Science

Stanford University

📅 2013 - 2017

LANGUAGES

English

Native Speaker

KEY ACHIEVEMENTS

Computer Science

Specializing in software engineering, database systems, and web technologies.

Data Structures & Algorithms

Emphasizing algorithms, software engineering, and full-stack development.

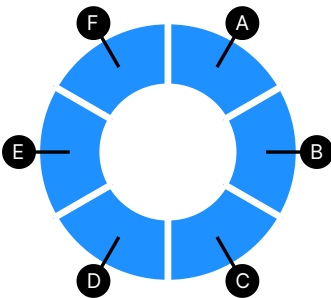

SKILLS

React.js	Vue.js	Next.js	Laravel
Python	Node.js	Express.js	PHP
MongoDB	MySQL	PostgreSQL	
Git	Docker	AWS	CI/CD
Android	REST APIs	GraphQL	
Blockchain			

COURSES

Full Stack Web Development – Coursera AWS, Cloud Practitioner – Amazon Training

DAILY RESPONSIBILITIES

- A Software Development & Feature Implementation
- B Debugging & Quality Assurance
- C Code Review & Team Collaboration
- D Technology Research & Continuous Learning
- E Daily Stand-ups & Agile Ceremonies
- F Deployment & Performance Monitoring
